### SALES FLOOR & BACK-OF-HOUSE LIGHTING

- Lighting solutions for sales floor, checkout, and back-of-house areas
- Linear and strip lighting for stock rooms, prep areas, and support spaces
- Designed for consistent illumination and visual comfort

### MISSION CRITICAL APPLICATIONS

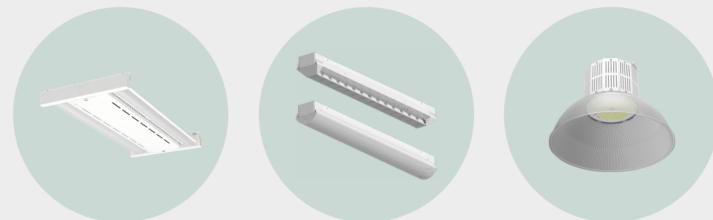

- Fuel storage and distribution systems supporting standby power generation
- Generator fuel supply and power system coordination
- Designed to support operational continuity during outages

### LIGHTING: HIGH-BAYS

- LED high-bay lighting for racked storage, aisles, and dock areas
- Designed for uniform illumination and long-term reliability
- Retrofit and new construction support

### MEZZANINES & INDUSTRIAL STORAGE SYSTEMS

- Mezzanine platforms to maximize vertical space
- Industrial storage systems for high-density inventory
- Designed to integrate with racking and material handling systems

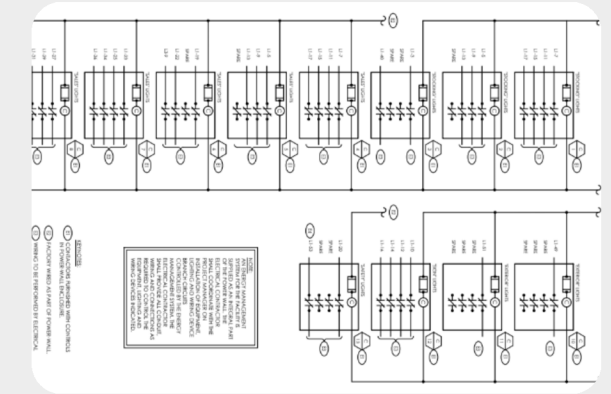

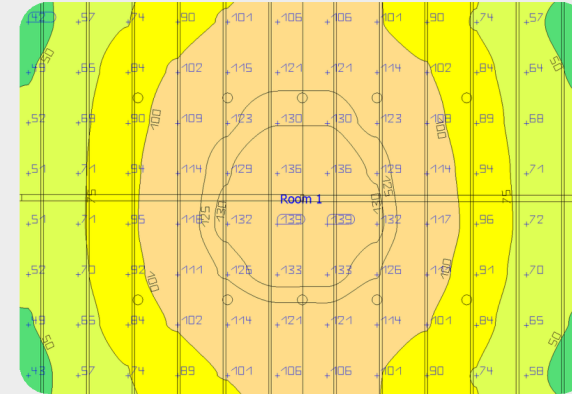

## STORMWATER MANAGEMENT

- Stormwater solutions supporting site drainage and runoff control
- Designed to align with permitting and regulatory requirements
- Reduces drainage issues that can impact daily site operations

## LIGHTING LAYOUTS

- Lighting layouts to support coverage, spacing, and uniformity
- Pseudocolor and radiosity images to visualize light levels across the space
- Coordination with engineers and facility teams during design and review

## EV CHARGING

- EV charging solutions for customer-facing retail locations
- Support for charger placement, site layout, and electrical coordination
- Designed to integrate with existing store sites and parking areas

## EXTERIOR & SITE LIGHTING

- Area lighting for parking, drive lanes, and site perimeters
- Exterior architectural lighting, including wall-mounted fixtures and bollards
- Lighting controls supporting scheduling and site-wide consistency

## FURNITURE

- Booth and banquette seating
- Tables and bar-top surfaces
- Upholstered and leather seating systems
- Custom seating configurations

## COOLER & REFRIGERATED CASE LIGHTING

- Lighting for refrigerated cases, coolers, and freezer doors
- Designed for cold, high-use retail environments
- Supports consistent illumination and visibility

## GRAPHICS & DIGITAL BRANDING

- Branded graphics
- Interior and wayfinding signage
- Wall coverings and surface applications
- Digital signage and menu boards

## MILLWORK

- Custom millwork solutions for retail store interiors
- Fixtures and casework designed for durability and daily use
- Coordinated to align with store layouts and in-store flow

# WALSH, LONG & COMPANY, INC.

At Walsh, Long & Company, Inc., our role is to help our client partners identify the right solutions to address real facility challenges. As a manufacturer representative firm, we support lighting, electrical, infrastructure, and energy-related systems—focusing on what works best for the application, not just a single product line.

## How We Support Our Partners

- Manufacturer-agnostic, solutions-driven approach
- Support from layout and design through implementation
- Focus on efficiency, consistency, and long-term performance
